

## WHAT HAPPENS

Text von Ilse Zacharias

### 1. Strophe

what happens, let me know, - let me know, oh baby  
I feel that something strange is going on...baby

Oh tell me your trouble, tell me  
tell me your trouble. I've got to know  
what's changed you so? changed you so

Let me look in you heart, look into your heart  
don't hide your eyes from me  
let me know what I fear

I've got to see clear  
don't close your heart from me!  
Open up, open up to me

### Refrain

What happened happened, tell me, - tell me baby  
to our love that was (seemed) so true, so strong?

You've got to tell me, tell me - tell me baby  
I've got to know, got to know  
tell me, what went wrong?

### 2. Strophe

I've been so sure (of you)  
always been sure,  
never thought that anything  
could ever tear us apart

and now you strike my heart, oh Baby  
something's broken deep inside me

Think of all we did tothether  
all we went through  
It meant so much to me -  
I've always believed in you

Was nothing but illusion  
just a dream? nothing but a dream?  
To me it always seemed true

### Refrain

What happened happened, tell me, - tell me baby  
to our love that was so true, so strong?

You've got to tell me, tell me, - tell me baby  
I've got to know, got to know  
tell me, what went wrong?

Instrumentalteil

### Bridge:

Mmmh - That strange look in your eyes  
Year heart seems far away

- so so far-  
lightyears afar

### 3. Strophe

Oh Baby, come back, come back to me  
I want your love back, hold me, hold me, hold me  
Oh Baby don't let me down

I won't believe it's over  
I won't believe your love is gone  
What we done, what we shared, can't be gone  
can't all be gone

Let us keep it let us keep, keep what we have  
don't throw it away, don't cast it off  
don't cast me off!

the dark shadow that keeps us apart  
don't let it take over our minds  
don't let it poison our love

### Refrain

What happened happened, tell me, - tell me baby  
to our love that seemed so true, so strong?

You've got to tell me, tell me - tell me baby  
I've got to know, got to know  
tell me, what went wrong?

you have my heart in your hands, oh baby  
let me see you smile again  
I'm longing for your touch  
your embrace, your kiss

all we had, all that I miss  
all that I miss so much  
all that I miss so much

ooohh - be with me!  
let me know - let me feel

you're near again  
don't let me fall down
